BACKGROUND

Since 2016, *Economic Development Week* has increased awareness of local and regional economic development programs that improve quality of life, create jobs, and advance the economic diversity of communities.

Economic Development Week aims to show the support of the Leduc County's economic development contributions to the community, emphasize the importance of economic development, and increase the exposure of economic development work being done by Leduc County staff.

Communities across Alberta and North America will be officially proclaiming *Economic Development Week*, sharing with communication channels and networks, to strengthen awareness and support for Economic Development. The initiative is also supported by Rural Municipalities of Alberta (RMA), Alberta Municipalities (AM), and Economic Developer's Alberta (EDA).
